

LearnBOX   Onefile

---

**Better  
Together**

# Lets start with why...

By purchasing learning content from LearnBox, you'll benefit from engaging, entertaining and educational videos accessible directly through OneFile's Learning Hub.

LearnBox films are learner focused, data driven, empowering and occasionally humorous!

With OneFile's Learning Hub the learner is in control of their learning, with the added value of the support from their tutor and employer to provide them with support to effectively manage their progression.

## **Why LearnBox content?**

LearnBox was founded with a rebellious spirit and is committed to revolutionising training.

We put people in control of their learning, giving them a completely different experience that means they can work at their own pace at the time that's right for them... outside the confines of the classroom.

# LearnBox Benefits

**LearnBox believe in innovative, effective education.  
And they deliver it.**

**They deliver full courses** - all the teaching required through high quality, engaging videos

**They support** - assessment of learning takes place regularly throughout

**They achieve** - their pass rates are much higher than the national average

**They spend levy** - training providers can deliver more for less, supporting effective levy spending

**They standardise** - high quality standardised learning that fits around business needs

**They individualise** - tutors can read the learner digital body language and offer the relevant support

**They care** - tutors using LearnBox have a better work-life balance (and can manage bigger caseloads) as there is no teaching required from them

**They create** - additional bespoke content can be made to standardise key organisational messages that can be spread across the globe

**They are ethical** - they save trees, unnecessary car journeys and lightbulbs in classrooms

**Tutors using the LearnBox system have confirmed it has supported them to increase their caseloads by a minimum of 39%.**

# Functional skills

Functional skills can be particularly difficult for training providers to deliver: the time it takes, the shortage of Maths and English teachers, and employers wanting to minimise 'release times' are all issues faced.

LearnBox offers a unique and innovative solution with ground breaking videos which enable users to learn at their own pace and in their own time. It also ensures tutors can track learner progress and capture key data that shows where additional, individual support is needed.

When you buy a LearnBox Functional Skills licence you'll also receive a combined Initial Assessment and Diagnostic test free of charge.

Our programmes increase the speed at which people learn, enabling you to increase the amount of Functional Skills courses you deliver whilst effectively utilising your current Functional Skills resources.

- **97% English Functional Skills pass rates first time \***
- **90% Maths Functional Skills pass rates first time \***
- **100% English and Maths Functional Skills pass rates second time \***

\*Confirmed pass rates March 2019
